Text processor.

Basic UI UX using figma

Slide presentation.

Eager to begin my career with an internship where I can apply my technical foundation, actively learn, and provide my full support to the team. Ready to contribute my skills and enthusiasm to help achieve project goals and drive impactful results.

# PROJECTS

## Minor Project

My minor project was this portfolio which was my first project UI\UX using figma .As it was my first project it will be as simple as it look with just basic tools. I developed my design over major project[which was to replicate Instagram].

## Major Project

My major project was on replicating Social media that is Instagram. As it was difficult in starting as the time goes it started to get easier but it was challenging and time consuming process.
